

UTTAM PATRA

(Front End Developer)

+916294718722 | dev.uttampatra@gmail.com | Kolkata, WB | [LinkedIn](#)

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, WebSocket, Axios, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Tools & Others: Postman, Git, GitHub, Prismic CMS, Razorpay Integration, AWS S3, Digital Ocean, Google OAuth

Concepts: State Management, Real-time Communication, API Integration, Web Performance Optimization, SEO in Next.js, Clean Code Practices, Component-driven Development, Code Review

WORK EXPERIENCE

Notebrains Software and Services Pvt. Ltd . Kolkata, West Bengal

Web Developer (Frontend Developer)

Dec 2024 - Present

- Developed enterprise-grade SaaS applications using React.js, Next.js, Redux Toolkit, TypeScript, and Tailwind CSS.
- Designed scalable frontend architecture with reusable component libraries, improving development efficiency.
- Integrated REST APIs with centralized Axios interceptors, token-based authentication, and robust error handling.
- Implemented JWT authentication, protected routes, and role-based authorization.
- Built responsive, mobile-first interfaces compatible across major browsers.
- Optimized application performance through code splitting, lazy loading, and efficient rendering techniques.

Webapps Software Solutions . Kolkata, West Bengal

Web Developer (Frontend Developer)

Jan 2024 - Dec 2024

- Led frontend architecture and development of a production-ready Platform using Next.js and React.js.
- Built secure authentication with Google OAuth, OTP verification, and JWT-based authorization.
- Developed Admin Panel featuring role-based permissions and dashboard analytics.
- Implemented real-time chat, notifications, and live updates using WebSocket.
- Integrated Razorpay payment gateway with secure checkout workflows.
- Collaborated closely with backend developers to design scalable REST API integrations.

PROJECTS

[Global Sports Network \(Internal\)](#) [Link](#)

Tech Stack: React.js, Redux Toolkit, JavaScript, SCSS, Bootstrap, Axios, RESTful APIs, WebSocket, Razorpay, OAuth

- Led end-to-end frontend development, delivering scalable architecture, reusable components, payment integration, and production-ready features independently.
- Implemented WebSocket, Google OAuth, JWT authentication, code splitting, performance optimization, and secure payment gateway integrations.

[Rally-up \(Internal\)](#) [Link](#)

Tech Stack: Next.js, Redux Toolkit, TypeScript, Tailwind CSS, RESTful APIs

- Solely designed and developed the complete frontend architecture, reusable UI system, authentication flows, and seamless backend API integration.
- Implemented OTP authentication, JWT route protection, Redux Toolkit, custom hooks, dynamic routing, lazy loading, and performance optimization using Next.js.

[Loadify freight-map \(Internal\)](#) [Link](#)

Tech Stack: React.js, Redux Toolkit, JavaScript, Three.js Tailwind CSS, RESTful APIs

- Independently architected and delivered the entire frontend, including authentication, reusable components, dashboard, API integration, and responsive UI from scratch.
- Implemented Three.js rendering, Redux Toolkit state management, protected routes, optimized API handling, and scalable component-driven architecture for maintainability

EDUCATION

Full-Stack Web Development Training

Aug 2023 - Jan 2024

Physics Wallah (PW Skills)

Bachelor of Arts

Aug 2020 - Jan 2024

Vidyasagar University
